

# OACSIM Strategic Priorities

---

- Assert OACSIM as the SME for Installation Management
- Leverage public and private partnerships
- Provide guidance and direction on execution of Installation Management policy and resources
- Achieve audit readiness
- Refine and execute Facility Investment Strategy
- Promote environment and energy resources stewardship and sustainability
- Build and maintain programs that support ready and resilient Total Army, including Active Guard and Reserve
- Prioritize services and infrastructure in an era of declining resources
- Establish the mandate for common standards and metrics for all Army Installations
- Mature installation management business processes to optimize systems support and business operations
- Develop our workforce and build the bench
- Shape the workforce and organization to optimize effectiveness
